Dear Shareholder,

We are writing to let you know about developments taking place within Fidelity Funds impacting Sub-Funds that you are invested in.

With effect from 27 October 2025, unless otherwise stated below, we will be making the following updates:

### 1. Minimum Sustainable Investments

The following Sub-Funds will no longer make sustainable investments:

- FF - Strategic Bond Fund
- FF - Flexible Bond Fund

The minimum percentage of sustainable investments for FF - European High Yield Fund will increase from 2.5% to 5%.

These updates will have no impact on the risk profile or investment management of the Sub-Funds.

### 2. Derivatives disclosures of certain Sub-Funds

The use of derivatives for the following Sub-Funds will be limited to hedging and efficient portfolio management purposes:

- FF - Global Dividend Fund
- FF - Greater China Fund
- FF - Greater China Fund II
- FF - Asia Equity ESG Fund
- FF - Asia Equity II ESG Fund

### 3. Reclassification of FF - European Smaller Companies Fund from Article 6 to Article 8 of the Sustainable Finance Disclosure Regulation ("SFDR")

The Sub-Fund will be classified as an Article 8 product within the meaning of the SFDR and in accordance with Fidelity's Sustainable Investing Framework. This change is made in response to client demand and to align with regional market standards, while preserving the fund's existing investment objective and policy.

The investment policy of the Sub-Fund will be enhanced with additional disclosure relating to sustainable investing and the promotion of environmental and social characteristics and a Sustainability Annex will be added.

**4. Investment policy of FF - Climate Solutions Fund**

The investment policy of the Sub-Fund will be adjusted to reflect a thematic investment aim of climate change mitigation and adaptation.

**5. Investment policy and investment process of FF - Sustainable Eurozone Equity Fund**

The investment policy and investment process of the Sub-Fund will be updated to include the aim to have a lower hazardous waste footprint compared to that of the benchmark. In addition, the investment universe will be reduced by at least 30% due to exclusion of issuers on the basis of their ESG characteristics.

The investment policy of the Sub-Fund will also be updated to reflect that the Investment Manager will exclude investment in issuers with an MSCI ESG rating below “BB” instead of “BBB” and the Sustainability Annex of the Sub-Fund will be updated to reflect that the commitment to invest in sustainable investments with an environmental objective aligned with the EU Taxonomy is being reduced from 3% to 2.5%.

**6. Sustainable Investing approach of FF - Global Demographics Fund**

The Sub-Fund will aim to have an ESG score of its portfolio greater than that of its benchmark (without exclusion of securities with the lowest ESG ratings). The Sub-Fund will be designated as ESG Tilt and will apply ESG Tilt exclusions in accordance with Fidelity’s Sustainable Investing Framework. In addition, the investment process will be updated to remove the requirement of the Sub-Fund to assess the ESG characteristics of at least 90% of its assets and to reduce the investment universe by at least 20% based on ESG characteristics.

**7. Investment process of FF - Global Healthcare Fund**

The investment process of the Sub-Fund will be updated to remove the requirements to assess the ESG characteristics of at least 90% of its assets and to reduce the investment universe by at least 20% based on ESG characteristics.

**8. Investment policy of FF - Asia Pacific Strategic Income Fund**

The investment policy of the Sub-Fund will be amended to decrease the investment limit for below investment grade bonds from 90% to 30% and hence clarify that the Sub-Fund invests at least 70% of its assets in investment grade debt securities.

This change will have no impact on the way the Sub-Fund is being managed.

**9. Name and investment policy of FF - Multi Asset Income ESG Fund**

With effect from 3 November 2025 the name of the Sub-Fund will be changed to FF - Global Multiple Opportunities Fund. This change reflects an update to the investment objective and policy, which will result in a EUR-denominated strategy that will seek to deliver long-term capital growth by investing globally across a range of asset classes. We are making this change to address evolving market conditions and better align with investor needs.
